- Release Date: May 31st 2019
- Release Designation - MD (Maintenance Deployment)

### Build Information

APPLICATION VERSION	
Server Version :	8.2.2-20190529-9a915bd
Web Version :	8.2.2-20190529-a691172+b8
OVA Version :	1.34.0

## Resolved Customer Issues

- LD-24053: Filters to InfluxDB rolled up data may cause the report to never run and permanently hold a thread
- LD-24104: A completed application report will not render due to malformed json response
- LD-24107: Report returns no data due to corrupted data within the reporting duration
