

LiveNX 9.5.6 Release Notes

Release Information

- Release Version: LiveNX v9.5.6
- Release Date - Jan 20, 2022
- Release Designation - MD (Maintenance Deployment)

Build Information

APPLICATION VERSION	
Server Version :	9.5.6-20220119-ff10061
Web Version :	9.5.6-20220118-1cceb332d1+b6

Resolved Customer Issues

- LS-2971: Viptela DPI application resolution will now use the device's definitions
- LS-2965: Improved memory usage when there are a large number of QoS class/match statements

Bug Fixes

- Updated log4j from 2.17.0 to 2.17.1
- Removed .zip support when upgrading LiveNX
- Fixed an issue where AVC aggregations could be larger than expected
