

## What's New in LiveNX 21.5.0

- Enhanced RBAC capabilities:
  - Updated Notification Sidebar for RBAC support

**RBAC Group**

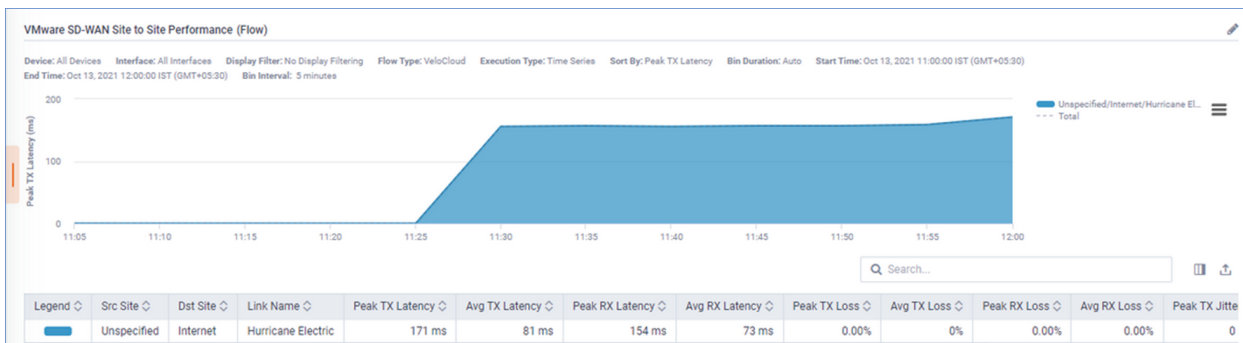

**This Group Authorizes**

1. What Menu Options are visible
2. What Region, Site, and Device are visible
3. What Flow Data is visible
4. Java Client Authorization Level

**Members**

1. Jane
2. Joe
3. Bob
4. Mary

- Added new VMWare SDWAN (VeloCloud) reports

- Added multi-instance support to BGP Alerts

### BGP Peer Connection Change

LIST OF INSTANCES **+**    **ADD NEW INSTANCE**    INSTANCE DETAILS
